---

PROFESSIONAL SUMMARY

Computer Science Graduate at Tshwane University of Technology, with a strong passion for software engineering, cloud computing, and full-stack application development. Experienced in developing web applications using Java, React, Spring Boot, HTML, CSS, JavaScript, SQL, and MySQL, and currently expanding cloud computing knowledge through AWS Fundamentals. Skilled at solving complex technical problems, designing scalable software solutions, and collaborating within development teams, with a strong commitment to continuous learning and growth as a software engineer.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL
Frontend Development: React, HTML5, CSS3
Backend Development: Spring Boot, REST APIs
Databases: MySQL
Cloud: Amazon Web Services (AWS Fundamentals)
Development Tools: Git, GitHub, Visual Studio Code, NetBeans, IntelliJ IDEA
Other: Object-Oriented Programming (OOP), Database Design, Software Development Life Cycle (SDLC), Problem Solving, Agile Team Collaboration

PROFESSIONAL EXPERIENCE

Content Designer

Dekra IOL, Centurion | November 2024 - May 2025

- Designed and maintained digital learning content for educational programmes.
- Collaborated with multidisciplinary teams to deliver high-quality educational materials.
- Applied analytical thinking to improve content quality and usability.
- Worked within project deadlines while maintaining strong attention to detail.
- Produced clear documentation and supported project deliverables.

SOFTWARE PROJECTS

SecureRide

React, Spring Boot, MySQL, Git, GitHub

Developed a ride-hailing application as part of a collaborative software project.

- Built responsive user interfaces using React.
- Developed backend services using Spring Boot.
- Connected application services to a MySQL database.
- Implemented RESTful APIs for communication between frontend and backend.
- Used Git and GitHub for version control and team collaboration.

AI-Powered Learning Management System (In Progress)
React, Spring Boot, MySQL, AWS

Designing a modern Learning Management System that integrates Artificial Intelligence to improve learning experiences.

- AI-assisted learning recommendations.
- Student and lecturer management.
- Course management and assignment submission.
- Progress tracking with planned cloud deployment using AWS.

EDUCATION

Diploma in Computer Science
Tshwane University of Technology | 2022 - Graduation: April 2026

Relevant Coursework: Software Engineering, Database Systems, Data Structures, Algorithms, Object-Oriented Programming, Web Development, Systems Analysis & Design

CERTIFICATIONS

- FNB Full Stack Development Certificate - Issued 16 July 2025
- Amazon Web Services (AWS) Fundamentals - Currently in progress

ACHIEVEMENTS

- Developed full-stack software projects using React and Spring Boot.
- Built RESTful APIs integrated with relational databases.
- Applied Git and GitHub for collaborative software development.
- Demonstrated strong analytical and problem-solving skills through academic and practical software projects.
- Continuously expanding knowledge in cloud computing through AWS learning.

LANGUAGES

English - Fluent | isiZulu - Fluent | Sesotho - Conversational
